HISTORY OF OUR BUSINESS

Peter Bohlender Stayed Home While Gold Miners Rushed West To Calif.

In 1849, Peter Bohlender, a poor, young immigrant from Bavaria with no formal education, began growing fruit trees near Dayton, Ohio. Although he founded Spring Hill Nurseries with the smallest of shoe string beginnings he soon became recognized as a leader in Horticulture. People found they could depend on his plants. These people told their friends and slowly but surely the fame of the nursery spread.

Today in 1949 we have one of the largest and most modern nurseries, producing over one million plants each year which are shipped to every state in the union.

W. F. Bohlender, son and H. N. Kyle, son-in-law, assumed active management for 33 years. In 1929 Tom Kyle completed his Horticultural schooling at O.S.U. and entered the business as production manager. In 1937 Tom and Howard Kyle, grandsons of the founder, assumed full ownership and management. For three generations now, 100 years, the business has been continuously operated. Each generation has had a natural love for plants and all grew up working in the fields.

Specialties

We specialize in SHRUBS (L.O.) abbreviation for lining out. It is our policy to discard culls and make strong grades heavy enough for field planting.

HARDY CHRYSANTHEMUMS—We grow over 400 varieties of chrysanthemums, planting about 200,000 plants each spring. Visit us this fall and see acres of hardy mums in all colors, types, sizes and blooms. We are not hybridizers but grow all the new introductions we can purchase.

Three generations of continuous service; owned and operated by Peter Bohlender's grandsons — Tom and Howard Kyle.

TERMS and CONDITION of SALE

GUARANTEE AND LIABILITY—All nursery stock in this list is guaranteed, graded to A. A. N. standards, true to name, clean thrifty plants, State and Federal inspected. Our Ohio certificate of inspection accompanies all shipments. All quotations for immediate acceptance and subject to being sold. We give no warranty express or implied as to description, life, quality, productiveness or any other matter of any nursery stock, seeds, or bulbs we sell. In no case will we be liable for a greater amount than the original purchase price. Contracts subject to crop or conditions beyond our control.

CLAIMS—For any cause must be made immediately in writing on receipt of stock.

SHIPMENT—Travel at risk and expense of purchaser.

It is best to give specific shipping instructions. Otherwise we use our best judgment. While we do our utmost to secure prompt delivery we are not liable for delays in transit. Our responsibility ends upon delivery to carrier. We cooperate to remedy loss between purchasers and carriers.

PACKING CHARGES—Net F. O. B. Tipp City. Extra at cost of material and labor.

PRICES—Are based on present market conditions and subject to change without notice. They are wholesale and intended to legitimate trade only. We will appreciate anyone in the trade advising us should someone receive our list not entitled to same. 1 to 4 plants at each rate, 5 to 24 of a variety at 10 rate, 25 or more of a kind at 100 rate, 250 or more at 1000 rate.

TERMS—2%, 10 days, 30 days net when credit is established. Otherwise cash. All C.O.D. orders require 25% deposit.

**MEMBER AMERICAN ASSOCIATION OF NURSEYMEN
OHIO STATE ASSOCIATION OF NURSEYMEN**

NOTICE In the rush of planting seasons it is difficult to serve customers on short notice. Therefore we can give better service when you make an appointment in advance. Wholesale orders taken at our office on Sundays; however, no wholesale orders dug, assembled or loaded on Sundays, except by previous arrangement.

For individual selection and field tagging add 25% to list prices.

All contracts, orders and agreements are subject to restricted transportation, labor shortage, material priorities and other emergencies, therefore Bohlender Nurseries Co. cannot be responsible when any of the above conditions limit or make impossible performance. Absolutely no agents or salesmen.

LARGE SPECIMEN SHADE TREES**

We have several hundred large specimen shade trees. Not being large tree movers we are anxious to dispose of these plants at sacrifice prices.

Bohlender's Hardy Vines

Their uses are many. Unsightly banks, fences, buildings, etc., can be beautified at a small expense. A sunny porch made cool: a plain front porch appears as if draped with expensive petaled curtains.

REGISTERED RASPBERRIES

Propagated by the Ohio Small Fruit Improvement Association. Almost disease free; every plant individually hand tipped, graded and dug by members of the Association under strictest inspection and regulations permitting 1% or less virus disease and not more than 1/4% of gall in parent plants. Bohlender does not recommend you purchase these extra quality plants unless you can plant them away from uninspected raspberries. An isolated patch with proper care will far outyield ordinary plants and remain healthy for years. We can supply Bristol, Logan, Cumberland and Latham in registered plants.

STRAWBERRIES

Large quantities of America's best strawberries are contract grown each year. They are scientifically cooled in our refrigerated cold storage for extra vigor. The following varieties ready for spring shipment throughout the season:

FINEST SPRING BEARING STRAWBERRIES

PREMIER Unequalled production, dependable. The most extensively planted early strawberry. Quality, flavor, size, color equal the best. Unequalled yield, a fine plant maker and vigorous grower. Recommended for home and commercial plantings. 25 plants \$1.25; 50 plants \$1.95; 100 plants \$2.75; 200 plants \$4.80; 500 plants \$8.95; 1,000 plants \$14.00.

ROBINSON (Largest and Fanciest) This outstanding, new, giant strawberry is nearly perfect. No doubt the most attractive berry on the market; sells at premium prices. Big, glossy, scarlet-red to the heart, sweet, juicy, delicious of firm texture and excellent keeping qualities. Unsurpassed for canning, freezing or eating fresh. An excellent plant maker with thick heavy foliage, ripening 10 to 15 days later than Premier. 25 for \$1.30; 50 plants \$2.00; 100 plants \$3.00; 200 plants \$4.95; 500 plants \$9.40.

CATSKILL Heavy yielding. Vigorous growing with exceptionally large bright red berries. Ripens mid-season but has such large crops for such a long time. Catskill still has nice berries when later kinds are gone. Excellent for eating, canning, and freezing. 25 plants \$1.35; 50 plants \$2.15; 100 plants \$3.15; 200 plants \$5.25; 500 plants \$9.85; 1,000 plants \$16.00.

FAIRFAX The quality berry. Exceptionally large, dark red strawberries. Universal favorite for flavor, color, size and productivity. A new U. S. D. A. early fruiting variety. 25 plants \$1.30; 50 plants \$2.00; 100 plants \$3.00; 200 plants \$4.95; 500 plants \$9.40; 1,000 plants \$15.00.

SENATOR DUNLAP Fine for freezing. This grand old strain is probably the most popular variety in the Central States. Dependable, a sure bearer, tremendous yields of large, high quality berries. A favorite for canning. 25 plants \$1.00; 50 plants \$1.65; 100 plants \$2.50; 200 plants \$4.55; 500 plants \$7.00; 1,000 plants \$12.00.

EVERBEARING STRAWBERRIES

EVERBEARING MASTADON Extremely large. A leader in quality, size, dependability and yields. Plant now for fruit next summer. 25 plants \$1.95; 100 plants \$4.75; 500 plants \$17.50; 1,000 plants \$27.50.

EVERBEARING STREAMLINER Guaranteed to bear in your garden all next summer. Sweet as honey, jumbo size, bright color, uniform in size, self-pollinating, the finest quality of all. Begins bearing 8 to 10 weeks after planting and you have fruit until heavy frosts. 25 plants \$2.25; 100 plants \$4.95; 500 plants \$21.50; 1,000 plants \$35.00.

EVERBLOOMING GIANT GEM The leading commercial everbearing strawberry. Enormous yields of beautiful high quality strawberries the first summer. 25 plants \$1.60; 50 plants \$2.45; 100 plants \$2.98; 500 plants \$12.50; 1,000 plants \$19.50.

HARDY GARDEN PLANTS

VITAMIN RICH-NEW REDUCED PRICES

WASHINGTON ASPARAGUS Big, annual crops, easy to raise. Giant rust-resistant strain, ahead of others in size, tenderness and long cutting period. The leading asparagus. The first fine vegetable of spring. Like sweet corn, it is best when cut from your own garden and cooked immediately. Grow it as a beautiful ornamental plant if you have no vegetable garden.

NEW PARADISE ASPARAGUS A grand new variety, producing younger and heavier than any other asparagus. The stems are large, tender and green like Washington, even milder flavor. Spring Hill strongly recommends Paradise as a new money-maker and a better variety that deserves all its acclaim and popularity. If you have only a limited space, plant Paradise; it yields so heavily.

BIG ENGLISH CHRYSANTHEMUMS

The blooms are extra large and striking. We have purchased and grown all varieties of English mums we could buy from reliable growers. We find here at Tipp City only a few varieties are worthy of growing in the Middle

West. Most of them require special care and longer growing season to bloom.

BIG GREENHOUSE CHRYSANTHEMUMS

Large Commercial (Early Flowering Varieties). Grow them outdoors. The following are the giant blooming varieties, grown by commercial florists, that bloom in October. They must be taken up and potted in the North as they are not winter hardy. To produce the extra large blooms fertilize or feed plants and disbud, leaving only one to three blooms per plant, also be sure to stake. Plants grown this way are magnificent.

HARDY SPOON CHRYSANTHEMUMS

Long, tubular petals like miniature spoons. The large blooms are fully 3 to 4 inches across and extremely beautiful and novel. Makes lovely bouquets. Spider mums are very similar to spoons but petals are longer, excellent novelties.

HARDY CHRYSANTHEMUM CULTURE

Growing hardy chrysanthemums is growing in popularity with gardeners each year. Improved varieties that bloom before killing frosts are easily grown and flowered by inexperienced gardeners.

Organic matter or humus in soil is essential. With ample humus you get good tilth and drainage — these are the two most important requirements for soil. It is also far better to plant in full sunlight, otherwise plants grow leggy and color of bloom is poor. Do not crowd plants. We find it best to plant about May 15th. If planted earlier plants in our soil get too large. We have grown nice plants for retail when planted in early July.

Fertilizing should be done sparingly in spring months otherwise plants grow too fast. Any good commercial fertilizer like 4-10-6 is fine. Give 1st application a

few days after plants are planted. Then give second application after flower buds have set. Do not add fertilizer after flower buds show color.

If given sunlight, well drained soil, humus, fertilizer and cultivation you will have beautiful plants and abundance of blooms.

The shallow roots grow rapidly—do not cultivate too deep close to the plants. When the young plants reach a height of 5 to 7 inches pinch out top, leaving only 4 to 6 leaves. If plants are set out early in rich soil it is necessary to pinch several times in order to get low, stocky plants. Do not pinch after July 15th unless you want late blooms.

Disbudding is not recommended unless you want to produce blooms for show purposes.

PERENNIALS

Field grown perennials mostly untransplanted. Grown in fertile loam soil, planted in rows 42 inches apart. Clean, cultivated, vigorous, healthy plants at Big Savings! We invite you to come to the nursery and see our extensive perennial planting. Do not confuse with ordinary seedlings as all varieties were planted in early spring and are larger.

Not less than 10 of a variety sold; 25 or more of a variety at 100 rate; 250 or more at 1,000 rate. Quantity orders subject to samples.
